

# GV-AS4110 Kit

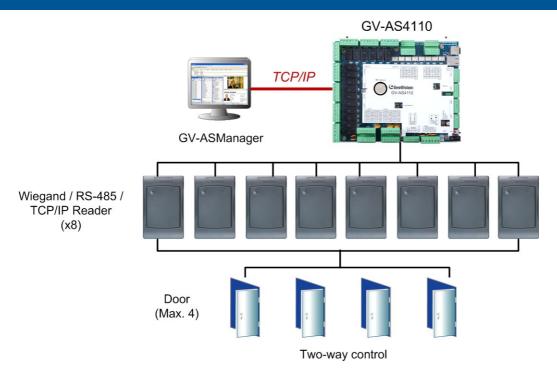

## **KEY FEATURES**

- One-way and two-way control of 4 doors
- 8 Wiegand card readers of 26 to 64 bits
- 8 GV-Readers and GV-GF Fingerprint Readers through RS-485 and network
- Built-in 16 inputs and 24 relay outputs
- Suitable for controlling doors, parking gates and access to elevator call buttons
- Support for tampering alarm

## **SPECIFICATIONS**

| <b>System Requirements</b> |                  |  |  |
|----------------------------|------------------|--|--|
| GV-ASManager Version       | n GV-ASMana      | GV-ASManager V4.2.3 or later   |  |
| Software                   |                  |  |  |
| One-Way Control            | 4 doors          | 4 doors  |  |
| Two-Way Control            | 4 doors          |  |  |
| Hardware                   |                  |  |  |
| CPU                        |                  | 32-bit ARM7TDMI  |  |
| Number of User Cards       |                  | 40,000 cards   |  |
| Event Buffer               |                  | 1,000,000 events and log data  |  |
| Power                      |                  | AC 100~250V , 50~60 Hz   |  |
| RS-485 Interface           |                  | 1 RS-485 interface only for GV-Readers and GV-GF Fingerprint Readers (max. 8 |  |
|                            |                  | Readers)   |  |
| Wiegand Interface          |                  | 8 Wiegand interfaces, 26~64 Bit format                                       |  |
|                            |                  | 12V DC power supply, 200mA   |  |
| TCP/IP Interface           |                  | 1 TCP/IP interface for GeoVision network readers                             |  |
| Communication              |                  | TCP/IP   |  |
| Battery                    |                  | Replaceable button cell  |  |
| Input                      |                  | 16 inputs, dry contact, NO/NC  |  |
| Output                     |                  | 24 relay outputs (30V DC, 3A; 110 ~ 250V AC, 3A)                             |  |
| Operating Temperature      |                  | 0 ~ 65 °C / 32 ~ 149 °F  |  |
| Operating Humidity         |                  | 10% ~ 90% RH (non-condensing)  |  |
| Dimension (W x H x D)      |                  | 420 x 300 x 110 mm / 16.5 x 11.8 x 4.33 in                                   |  |
| Weight                     |                  | 4.4 kg / 9.68 lb   |  |
| Certification              |                  | CE, FCC, RoHS  |  |
| Power Adaptor Board        |                  |  |  |
|                            | DC Voltage Range | 12V  |  |
| Output                     | Rated Current    | 0.9A   |  |
|                            | Rated Power      | 10.8 W   |  |
| Number of                  | Input            | 2  |  |
| connectors                 | Output           | 8  |  |
| Wire Size (AWG)            |                  | 12 - 22  |  |

-2-

| Power Supply |                  |                           |
|--------------|------------------|---------------------------|
| Output       | DC Voltage Range | 12V                       |
|              | Rated Current    | 12.5A                     |
|              | Current Range    | 0~10A                     |
|              | Rated Power      | 150 W                     |
| Input        | US Standard      | 110 – 120V, 50 Hz / 60 Hz |
|              | EU Standard      | 200 – 240V, 50 Hz / 60 Hz |

#### Note:

- 1. RS485 and TCP/IP interfaces only support GeoVision readers, while Wiegand interface supports both GeoVision and 3rd party readers (Wiegand  $26^{\circ}64$  Bits).
- 2. GV-AS Controllers do not support 3rd party access control software.
- 3. Specifications are subject to change without notice.

# **Options**

Optional devices can expand the capabilities and versatilities of your GV-AS Controllers. Consult your sales representative for more information.

| GV-Reader 1251        | GV-Reader 1251 is a card reader that uses a 125 kHz frequency. It has both Wiegand and RS-485 outputs that    |
|-----------------------|---|
|                       | can be connected to any standard access control panel.  |
| GV-Reader 1352        | GV-Reader 1352 V2 is a card reader that uses a 13.56 MHz frequency. It has both Wiegand and RS-485            |
| V2                    | outputs that can be connected to any standard access control panel.   |
| GV-RK1352             | GV-RK1352 is a card reader with keypad that uses a 13.56 MHz frequency. The reader has both Wiegand and       |
|                       | RS-485 outputs that can be connected to any standard access control panel.                                    |
| GV-R1352              | GV-R1352 is a card reader that uses a 13.56 MHz frequency. The reader has both Wiegand and RS-485             |
|                       | outputs that can be connected to any standard access control panel.   |
| GV-DFR1352            | GV-DFR1352 is a card reader that uses a 13.56 MHz frequency. The reader has both Wiegand and RS-485           |
|                       | outputs that can be connected to any standard access control panel.   |
|                       | The reader supports three operation modes: Fingerprint Only, Fingerprint + Card and Card Only. In             |
| GV-GF Fingerprint     | Fingerprint Only mode, the fingerprints are enrolled through GV-ASManager. In Fingerprint + Card mode, the    |
| Reader                | fingerprint templates are stored on the user card. In Card Only mode, the users only need to swipe the card   |
|                       | to be granted access. Readers with optical and capacitance sensors are available.                             |
| GV-CR420              | GV-CR420 is a card reader with a built-in 4MP wide angle IP camera. The card reader recognizes identification |
|                       | cards and transmits live view through network connection.   |
| Push Button<br>Switch | The push button switch can be integrated with access control system, allowing door exit by momentarily        |
|                       | activating or deactivating the electric locking device. Both American standard and European standard push     |
|                       | buttons are available.  |
| GV-IB25 / 65 / 85     | The GV-IB25 / 65 / 85 Infrared Button detects infrared movement within 3 to 12 cm and allows you to open      |
| Infrared Button       | the door with a wave of hand.   |
| Electric Lock         | Three types of electric locks are available: electromagnetic lock, electric bolt and electric strike.         |
| GV-AS ID Card &       | GV-AS ID Cards and GV-AS ID Key Fobs are ideal for business and residential environment, where access         |
| GV-AS ID Key Fob      | control is important for security reasons. 125 kHz and 13.56 MHz cards and key fobs are available.            |

### **Packing List**

- GV-AS4110 Kit (US standard or EU standard)
- Iron box key
- Iron box screw x 6
- Self-adhesive cable tie mounts x 6
- Power cord for battery
