Incredible H.265
Increase storage capacity
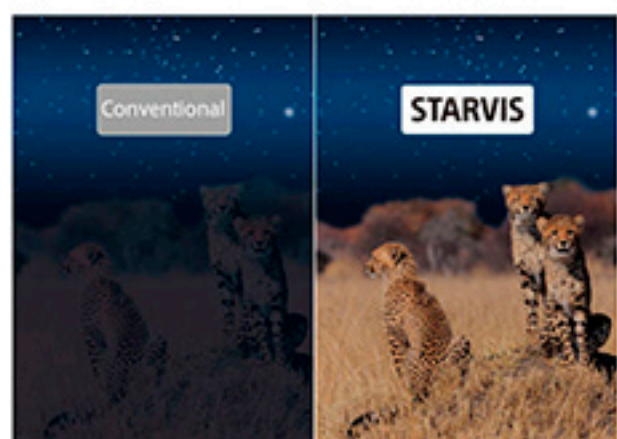

3 REASONE TO TRY GEOVISION H.265

REASON #1

Powered by STARVIS Starlight

Ultra Low Light technology developed by SONY

Conventional | STARVIS

Superior low light performance 2.13Mp BI IMX290

Conventional   0.08 lx
STARVIS   0.08 lx

IMX236 (2.8um FI pixel *1/2.8)
F=1.4   exp. 1/30s   frame rate=30fps
Gain 48dB   With IRCF

IMX290 (2.9um BI pixel *1/2.8)
F=1.4   exp. 1/30s   frame rate=30fps
Gain 63dB   With IRCF

The sensor is designed for security camera to capture usable images even at extremely low-light environment.

Save $$ on hard drive & bandwidth

H. 265 reduces the file size by about 50% and save around 60-80% of the bit rate at the same quality compared to H. 264.

60-80% Bitrate Reduction

Save 50% Storage

Bandwidth — H.265

Bandwidth — H.264

Free! H.265 VMS Included!

Do you already have a H.265 camera?
You are only half way there! Not until you get a VMS capable of handling H.265 streaming!

3D E-map

Free full-featured 32ch VMS included

- Unlimited channel support and up to 64ch per server
- H.265/HEVC, H.264 and MJPEG codec
- Supports camera corridor mode
- Over 1,000 IP camera models supported
- Heat map
- Web, tablet, and mobile via iOS/Android
- Integration with Access Control / LPR
- Outdoor intelligent motion detection
- GPU decoding & GPU Fisheye dewarping
- Timeline search
